

The love of honey bees is deeply rooted in the Dickey family after 4 generations of 'beekeeping'! Peter & Sandi Dickey are 'busy as bees' in their new honey house and teaching facility where you can come for tours, beekeeping courses and workshops.

Dickey Bee Honey Inc. is dedicated to producing pure natural honey and health products.

Peter & Sandi have received numerous awards for their outstanding products and business operation.

Visit their website for a list of all of their award winning products, distributors, health information and upcoming events.

Dickey Bee Honey Inc.

4031 3rd Line, Cookstown
705.458.1258

Liquid Honey is a natural, unrefined sweet fluid produced by honey bees from the nectar of flowers. Honey contains important vitamins and nutrients- enjoy honey's health benefits.

Creamed Honey is smooth, spreadable and is produced by crystallizing liquid honey under controlled conditions. Available in wildflower and buckwheat.

Bee Pollen is collected by the honey bees during the pollination process. Bee Pollen is the only known food which contains every essential nutrient for perfect health.

Comb Honey is produced and packaged as is - directly from the hive! It can be enjoyed as is or as a spread. Enjoy all the benefits 'local honey' can do for you!
